

Competencias del profesorado en comunicación oral en Lengua Inglesa: Curso de Pronunciación

Course in English Pronunciation

This course is aimed at Spanish speakers with **B 2** knowledge of English who want to improve their pronunciation with a view to giving their course in English. It is a PRACTICAL COURSE that will require no previous knowledge of English Phonetics and no theoretical learning outside the classroom. You will learn about the difficulties that English Pronunciation poses for Spanish speakers, how to overcome these difficulties, how to make your pronunciation more native-like and how to solve pronunciation problems that you may have in the future.

Full attendance and homework (recordings) will be required as it is in the classroom where we will do most of the practical activities and it is there where you will address your particular difficulties individually. As you all know: "practice makes perfect", so oral work (in the form of recordings) is demanded. **We discourage you from taking the course if the timetable demands don't fit your work demands.**

What will you be able to do at the end of the course?

- You will be able to read from phonemic transcription.
- You will know more about the difficulties that English has for Spanish speakers.
- You will be able to solve problems with new words .
- You will understand English better.
- You will pronounce English better.
